

In 1985, **DORIS ALDRICH** founded “Women to the World.” Doris and her associates have rescued countless women & children from poverty, dependency and abuse. With a ‘hands-on’ approach, they teach women to become more self-sufficient through education, crafts, & computer literacy. Doris’s footprints are in foreign lands such as Africa and Afghanistan. In Athens, PALS encourages local women by offering computer training and helps prepare them to get their GED certificate. When she has time for herself, she loves to sing and perform onstage. Her website is:
